1. On 5 February 1963 at the request of [redacted] Chief, Contracts Division, OSA, the undersigned afforded a security briefing to General Farnsworth on I, C, A & O. The General was briefed in order to secure his support in providing auditors to support this Agency in its contracting responsibility for these special projects.

2. At the conclusion of the briefing, I inquired of General Farnsworth as to whether he was aware of Project "O" prior to this briefing. The General replied that he was not and he indicated quite frankly that he was quite amazed that the project could have been protected so well that it did not come to his attention. [redacted]
